

RYON BEYER JOINS McLEAN ASSET MANAGEMENT

For Immediate Release
August 10, 2011
McLean, Virginia

McLean Asset Management Corporation (MAMC) proudly welcomes Ryon Beyer as the director of MAMC's employer sponsored retirement plans division. Recognizing the ongoing shift within ERISA regulated plans toward higher regulation and compliance standards, MAMC acted by establishing a new division specializing in the full service management of these plans. Ryon joins MAMC through the recommendation of one of MAMC's strategic partners, and brings his experience of building a similar platform for his prior employer, SFX Retirement.

At SFX Retirement Ryon was the lead portfolio manager, where he managed 85M in AUM. Acting on the request of one of his clients to review their 401(K), Ryon obtained authority to audit their plan and uncovered the hidden truth buried in the documents. This plan was charging north of 3.5% annually. With the firm's permission, he renegotiated the terms of all the service providers within the plan, providing transparency, and ultimately lowered their total cost by 70%. He spent the next four years building the platform and technology to scale this solution for plans of any size.

During his ten years at SFX Retirement Ryon built strong relationships with his clients, all of whom have joined him at MAMC, where he will continue to offer the same level of service and care to which they are accustomed.

Ryon shares MAMC's vision, integrity, and independent thought. As a graduate of the Virginia Military Institute, Ryon prides himself on bringing integrity to the defined contribution world – where it has traditionally been lacking.

McLean Asset Management Corporation is an independent registered investment advisor providing wealth management services to individuals and families across the United States. To learn more about the firm, please visit the website at www.mcleanam.com.
